

general rate season 2014 - 2015.

Hunt Description

- This animal is the most outstanding, that's why we offer a special plan to hunt the four subspecies of Spanish Ibex. We suggest to spend around 11 days in order to be successful in this hunting
- Hunting is arranged by stalking in Private Game Reserves & National Reserves.

Hunting Season

- From November to May. Best months are November and December.

Getting There

- A guide will be waiting for you upon arrival to the Madrid or Valencia airport, to take you to the hunting area.

Accommodation

- Lodging is provided in hotels and rural houses very close to the hunting area where you can enjoy wonderful meals.

Rules and comments

- All participating hunters must be in possession of: weapons permit, hunting license in the Communities and insurance in force. They must obey the laws and regulations dictated by Administration on hunting.
- Hunted trophy score will be provided by official messenger of SCI.
- The hunting guide will be responsible for the hunt and the rules during the same, if any inconvenience please feel free to contact the guide or the sales manager.
- The hunting is considered completed when all the trophies reserved have been obtained.
- If the hunter doesn't have the opportunity to shoot an ibex we will refund the trophy fee except a amount of \$US 2000 as a concept of hunting tax.
- All wounded animals (with blood) and not found must be paid .
